

TITLE

ELECTROLUMINESCENT IRIIDIUM COMPOUNDS WITH  
FLUORINATED PHENYLPYRIDINES, AND DEVICES MADE WITH  
SUCH COMPOUNDS

5

ABSTRACT OF THE INVENTION

The present invention is generally directed to electroluminescent  
Ir(III) compounds, the substituted 2-phenylpyridines that are used to make  
the Ir(III) compounds, and devices that are made with the Ir(III)  
compounds.
